December 14, 2005

Leon County Development  
Review Committee  
3401 W. Tharpe Street  
Tallahassee, FL 32303

Dear Committee Members:

Leon County Schools' Planning Department offers the following comments with regard to the items on the December 21 Development Review Committee Meeting Agenda:

**Fallschase Development – PUD Amendment** – Amendment to the Official Zoning Map and development of this project (1,514 residential units) will have critical impact to Leon County Schools. The current school zones are W. T. Moore Elementary, Swift Creek Middle and Lincoln High schools. Please note that all schools are at or above their Florida Department of Education capacity and will not be able to serve the projected number of students from this proposed development.

Thank you for your consideration.

Sincerely,

A handwritten signature in cursive script that reads "Tricia Gwaltney".

Tricia Gwaltney, Program Specialist  
Planning and Policy Development
